THE 2023

BEST OF BERGEN

RESULTS ARE IN

ABOVE What I like most about this finished basement in Demarest designed by Toledo Geller Interiors in Franklin Lakes is its brilliant use of space. The built-in drinking ledge, multiple seating options and nook with built-in banquette maximize the entertainment options in this muted, comfortable space. Photo courtesy of Jacob Snively

LEFT Why should adults have all the fun? Ridgewood designer Marina V. Umali designed this children's playroom using earth tones, neutral colors and natural materials. The nature-inspired reading nook features a hand-painted tree mural and floor cushions that mimic cut wood logs. Photo courtesy of Nabi Photography >
